

April 3, 2004

To the Editor,

Summer is rapidly approaching and with that comes College for Kids summer classes put on by Parkland College. As in prior years, Parkland will offer educational enrichment to children in grades 3 through 8, through the College for Kids (CFK) program.

This year's CFK session begins July 12 and runs through July 22. Even though this year's session is shorter in length, we have made the class times longer, from two hours to three hours, and we'll again offer our most popular classes: theater, Space, art (drawing), music, cool chemistry, writing science fiction, Spanish for beginners, and others.

We hope to begin registration in late April. Please contact Parkland's Community Education Office at (217) 403-1429 to be placed on the mailing list. We encourage early registration, as students will be accepted on a first come, first served basis.

Parkland delights in watching learning come alive, both for our workforce adults and for their children.

Sincerely,

Thomas M. Bennett
Parkland College Trustee
